THE HIROSHIMA DECISION

TRUMAN,
THE ATOM BOMB,
AND THE DESTINY
OF MANKIND

A PRESENTATION BY

BARRY LEVINE HOSTED BY THE YANKEE AIR MUSEUM

Join us June 7th, when the Yankee Museum's own Barry Levine will present the incredible story leading up to Japan's surrender in World War II. So much came together to end the war: New weapons (B-29 bombers and the atomic bomb), political and military leadership driven to end the war, and extraordinary crews to do the flying. These factors, and the moral considerations of using the atomic bomb — issues which we continue to live with to this day — will be presented and discussed.
