

Front

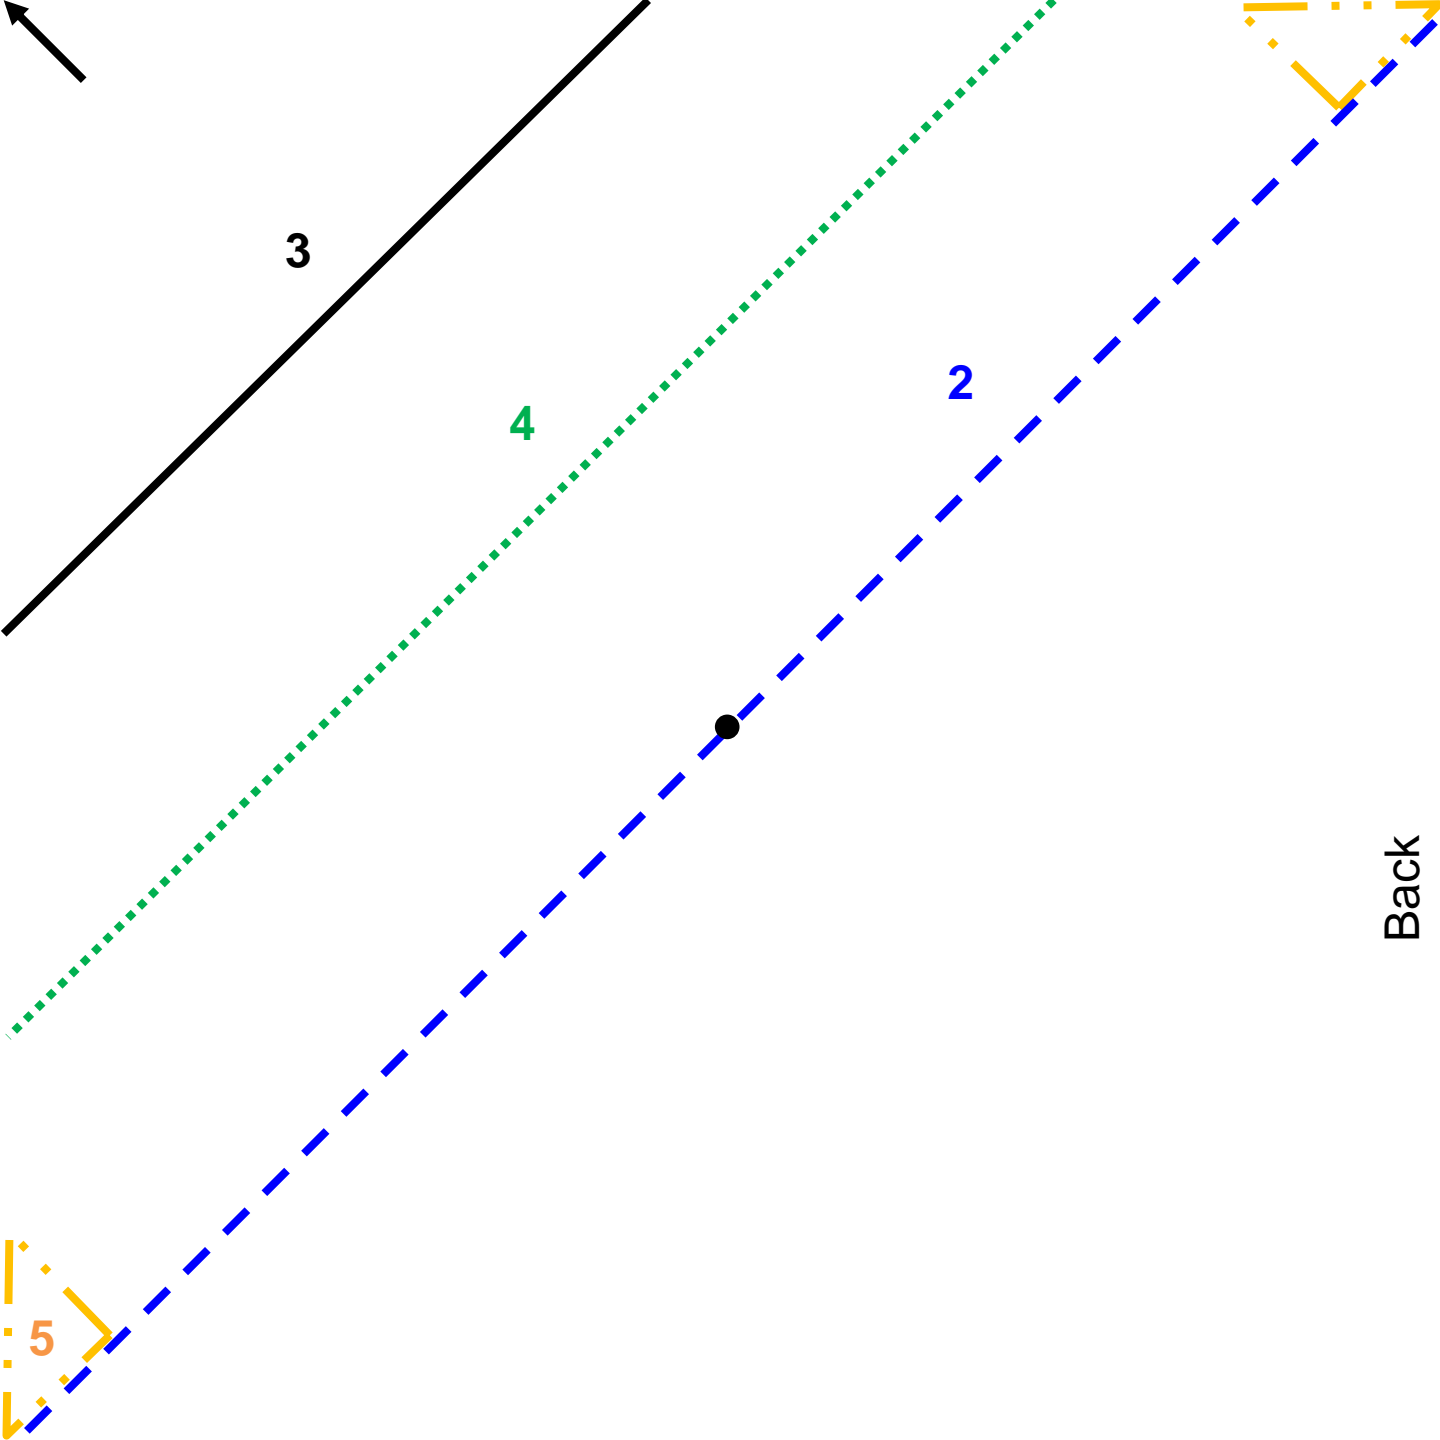

Flappy Plane

6

- 1 Cut along line
- 2 Fold and unfold
- 3 Fold corner with arrow to center black dot
- 4 Fold same corner in half again twice and then fold across original fold in step 2

- 5 Roll the folded end into a circle and insert one corner into the fold of the other
- 6 Cut out rectangle and tape over corners attached in step 5
- 7 Throw the plane at a slightly upward angle with the folded edge facing forward
