NEW VIRTUAL SERIES

This talk traces the politics of Project Apollo, from President John F. Kennedy’s call in 1961 to win the battle “between freedom and tyranny” with lunar exploration, to President Richard Nixon’s “Operation Moonglow” diplomatic tour of Southeast Asia in 1969. Drawing on a rich array of untapped archives and firsthand interviews with Apollo astronauts, Operation Moonglow explores the intersection of spaceflight, geopolitics, propaganda, and diplomacy during the Cold War.
